

Building Performance Institute, Inc. has approved the list of courses at the 2012 RESNET Conference below for a total of 82.5 BPI continuing education units:

Course Name	Units
RESNET Lessons Learned From the Trenches- Crawl Spaces	1.5
RESNET How Much is the Air Infiltration? –Field and Lab Results for Three Different Scenarios	1.5
RESNET Air Seal and Establish a Continuous Thermal Boundary at the Rim Joist, Top Plate, and Around Fenestration	1.5
RESNET Working Through ASHRAE 62.2	1.5
RESNET Basement Floor Insulation- How and Why	1.5
RESNET The Devil in the Details; The Finer Points of Air Sealing	1.5
RESNET Efficient and Effective Whole-House Ventilation	1.5
RESNET Designing for Dew Point	1.5
RESNET Assessing the Accuracy of Residential Building Energy Simulation Using a Large Empirical Dataset	1.5
RESNET Making Data Easier	1.5
RESNET Energy Codes- IECC 2009 and 2012- What are the Big Changes?	1.5
RESNET Energy Code Performance Compliance with the International Code Compliance Calculator- IC3	1.5
RESNET Work Smart with Low Pressure Spray Polyurethane Foam	1.5
RESNET A Summary of Fifty Years of Radiant Barrier Research	1.5
RESNET SIP A Breakout Session	1.5
RESNET Decoding Thermal and Ignition Barrier Requirements for Spray Polyurethane Foam	1.5
RESNET AC Systems Best Practices: How to Evaluate and Optimize Peak Performance	1.5
RESNET Advanced Thermography Investigations	1.5
RESNET Using Infrared Thermography All Year Long	1.5
RESNET The Truth Behind the Walls	1.5
RESNET Verifying and Measuring Ventilation Systems	1.5
RESNET Airflow Measurement Techniques	1.5
RESNET Measuring Air Leakage in Residential and High-Rise Buildings in Everything From a Dog House to the White House	1.5
RESNET Introduction to High Performance Homes and IAQ- The Implications of the EPA Indoor Plus Program	1.5
RESNET Advancing the IAQ Conversation- Cost-Effective Solutions	1.5
RESNET Mechanical Ventilation- The Right Options for the Right climate Zone to Optimize ENERGY STAR V3	1.5
RESNET Unvented Attics Using SPF: Best Practices for New Construction and Retrofit Applications	1.5

RESNET Build Affordable and Energy Efficient: A Case Study- Mason County Texas Habitat for Humanity	1.5
RESNET Making the Grade: Insulation Installation	1.5
RESNET HERS Rating Software Forum	1.5
RESNET Make Money on Your Cell Phone	1.5
RESNET Internet Marketing 101 for Home Performance Raters, Auditors and Contractors	1.5
RESNET Efficient New Homes in Young Markets in Changing Times	1.5
RESNET How Are You Going to Mangle All That Paperwork? Practical Software Solutions	1.5
RESNET Overcoming Valuation Barriers and the Stakeholder Solution to Market Transformation	1.5
RESNET Marketing Energy Code Testing & Inspections	1.5
RESNET Marketing Energy Efficiency to Homebuyers	1.5
RESNET Using the RESNET HERS Index to Attract Buyers	1.5
RESNET The Need for a Market Based National Label for Home Energy Performance	1.5
RESNET Top Ten Building Science Innovations for 2012	1.5
RESNET Multifamily Buildings: Labeling and Energy Efficiency Beyond Residential Spaces	1.5
RESNET PHIUS+ Certification: Quality Assurance for Passive Houses	1.5
RESNET A 250 Home Energy Rating "Case Study"	1.5
RESNET DOE's Builders Challenge: Recognition for America's Leading Edge Builders	1.5
RESNET LEED for Homes 2012: A Rating System Update in a Transforming Market	1.5
RESNET ESv3 from a Rater's Perspective	1.5
RESNET Program Panel: Lessons Learned from Implementing the New ENERGY STAR Version 3 Guidelines	1.5
RESNET Getting the Home Envelope Right	1.5
RESNET Critical Details in the HVAC System Quality Installation Rater Checklist	1.5
RESNET Program Panel: Marketing ENERGY STAR to Builders Under Version 3	1.5
RESNET Manual J Verification	1.5
RESNET 3 Essential Components of a Successful Green Business	1.5
RESNET Train the Trainer Sales Session-Learn the Skills to Help Your Builder Sell ENERGY STAR to Homebuyers	1.5
RESNET High Performance Wall Systems: How to Achieve the Best Results on a Budget	1.5
Total	1.5
