

RESNET Partnership with DOE Building America and Habitat for Humanity Affiliates- Benefits

Habitat for Humanity Affiliate Benefits:

- Energy Star rating including:
 - Site visit to measure duct leakage & infiltration and to identify energy related specs (insulation, windows, etc)
 - Preliminary Energy Star rating based on current specifications
 - Recommendations, if needed, on how to reach Energy Star – within consideration of Habitat’s volunteer construction process and tight first cost constraints
- Press release template and one-page case study provided by Building America

RESNET volunteer benefits:

- Recognition as a “Habitat for Humanity Volunteer Energy Rater” on the RESNET website
- Press release template and one-page case study provided by Building America
- Meet other construction industry Habitat volunteers in your community and expose them to the rating process
- Increase awareness of home energy rating process in the community
