

**Proposed Amendment:**

1004.2 Contractor Education and Qualification (CEQ) Provider

~~**1004.2.1 The CEQ Provider must be an accredited RESNET Rating Provider or Home Energy Audit Provider in good standing.**~~

Renumber section accordingly

*This amendment will take into effect 30 days after the approval by of the RESNET Standard Management Board.*

**Justification:**

The current requirement in Section 1004.2 Contractor Education and Qualification (CEQ) Provider that a CEQ Provider must be an accredited RESNET Rating Provider or Home Energy Audit Provider is too restrictive. There are many otherwise qualified organizations that would make effective CEQ Providers that are shut out by this requirement. Being a Rating Provider or a Home Energy Audit Provider really has nothing to do with being a CEQ provider.
