**1. Please describe in light of the responsibilities of the RESNET Board why you are the right person to be a member of the RESNET Board of Directors**

As an active participant in energy code development, working on the SDC300 committee, attending meetings where RESNET staff have presented vision and mission I have a fundamental understanding of where RESNET is today and where RESNET wants to be. I am prepared to assist in the growth of RESNET membership, the development of meaningful standards and quality oversight.

**2. Why is this the right time for you to serve on the RESNET Board?**

When considering the opportunity to serve in this capacity I approached our senior leadership about what the commitment would be. With the full support of our President/CEO and Sr VP of Operations I feel like no better time than the present for contributing at a higher level.

**3. Please explain your knowledge and/or experience in terms of each of the primary responsibilities of the RESNET Board**

At Beazer I am responsible for managing specific annual revenue while maintaining relationships with manufacturing and service partners and advocating for sensible and progressive energy efficiency improvement. In serving those roles I regularly interact with our corporate finance team, internal and external auditors. Working with finance and audit has provided the experience in maintaining budgets while complying with SOX controls. Working with Senior leadership at Beazer I am involved with strategic planning and implementation of the corporate vision providing the background and experience needed to serve on the RESNET Board and fulfill the duties and responsibilities of a board member.

**4. Describe your experience in either leadership and/or serving on the board of a non-profit organization.**

I have no prior experience leading or serving on the board of a non-profit or for-profit organization.

**5. What would you contribute to the RESNET Board?**

I will contribute a fresh and open mind, a singular focus as it relates to the RESNET Board charter and vision including a desire to make a positive and lasting difference while serving in the best

interest of RESNET and its constituency.
