1. Please describe in light of the responsibilities of the RESNET Board why you are the right person to be a member of the RESNET Board of Directors

My background has provided me with the necessary experiences to be an asset to the RESNET organization from a financial, organizational, and management perspective. Also, working with mostly large production builders I have developed relationships with their corporate personnel who also happen to be RESNET's largest customers.

2. Why is this the right time for you to serve on the RESNET Board?

I have been serving on the RESNET Board for over 8 years and have a historical perspective of the operation of the Board, the reasons behind previously made decisions by the board, and rational behind those decisions.

3. Please explain your knowledge and/or experience in terms of each of the primary responsibilities of the RESNET Board

1. My management of a large rater organization the size of TBHS requires a forward looking vision of the rating industry to foresee future threats and opportunities.
2. As the manager of a multi-million dollar rater organization I am responsible for the daily financial health of the organization, and oversight of all operating costs to ensure the financial success of the company. This responsibility provides me with the experience and background to ensure the success financial oversight of the RESNET organization.
3. A benefit of being part of a large public company is understanding the requirements for the governance required by the RESNET bylaws and standards.

4. Describe your experience in either leadership and/or serving on the board of a non-profit organization.

I have been on the RESNET Board for over eight years and served on the EEBA Board and Executive Committee for over 10 years.

5. What would you contribute to the RESNET Board?

I will bring a good understanding of the requirements for the successful operation of a large rater/provider organization, and how RESNET can best support these needs. My 17 years with a large rater/provider organization and 19 years with a public utility company has provided with a broad understanding of the needs of the residential energy industry.
