Interpretation: HERS Modeler Certification for Multiple Software

Designation: MINHERS-2022-001

Approved: October 28, 2022 by RESNET SDC 200

Effective Date: November 28, 2022

Reference:

Standard   ____MINHERS_____
Page Number(s):   _____Chapter 2_____
Sections(s):   _____206.2.2_____
Table(s):   _____N/A_____
Relating to: _____ HERS Modeler Certification _____

Request from:

Name: _____ Scott Doyle _____
Affiliation: _____ RESNET _____
Address: _____ PO Box N._____
City: ___ Oceanside __   State: ____CA_____ Zip: _____
Email: ___ scott@resnet.us _____

Background Statement: *Provided by person requesting the interpretation.*

The certification requirements for HERS Modeler seem to indicate that training is required specific to the software they certify on. But the additional requirements are not clear for currently certified HERS Modelers wanting to add additional software certifications. Clarification is needed so that RESNET Staff can provide guidance and enforcement of these requirements.

Proposed Interpretation: *Provided by person requesting the interpretation.*

Currently certified HERS Modelers may add additional software certifications by completing two additional probationary ratings with their Rating QA Provider. No additional training or practical evaluation is required.

SDC Response:

Is the proposed interpretation correct?   <u>**Yes**</u>

SDC Comments:

None
