1. Please describe in light of the responsibilities of the RESNET Board why you are the right person to be a member of the RESNET Board of Directors

I believe I am the right person to be a member of the Board of Directors because of my experience of governing as President and Board member of an Habitat for Humanity affiliate, my long standing volunteer with other Boards such as the United Way, Heart Fund, Chamber of Commerce and more importantly my long service on the RESNET Board of Directors and Board of Directors Executive Committee. Two years as Board Vice President and Two years as the Board President.

2. Why is this the right time for you to serve on the RESNET Board?

This is absolutely the right time for me to continue my service on the Board of Directors. Our industry has grown up and RESNET has challenges of competition and a multi layers of a changing business environment. RESNET is a leader in the industry and it is imperative our Board utilize experience of Board members but also realize we cannot rely on past business models that may not work any longer. While the organizations Board must be prepared and have short terms goals strategic long term planning must have vision and preparedness.

3. Please explain your knowledge and/or experience in terms of each of the primary responsibilities of the RESNET Board

Maintain Strategic vision: Gold standard of quality assurance. Enhance and maintain the high level of quality and integrity while keeping cost competitive. Build on our membership while showing the industry value. Fiduciary oversight: My experience managing at Board at the Executive level has prepared me for past challenges and future. Cashflow and reserves are still solid ways of protecting the organization. But, we must consider the fine balance of income, expenses, growth, when to step back, and how to reduce risk.

Governance, oversight compliance bylaws and (501C3: Follow the rule of law, very good attorneys.

4. Describe your experience in either leadership and/or serving on the board of a non-profit organization.

I have served on many Board. My service on Habitat for Humanity Board of Directors was challenging as we had limited budgets and ever changing Board seats and volunteers. As soon as we had a full Board it would change, responsibilities would shift and often it felt like we were constantly starting over. My honor and challenges serving on Non-profits Board prepared me for my service on the RESNET Board of Directors and my term as President. Remember that little pandemic we had. I had to cancel the in person conference.

5. What would you contribute to the RESNET Board?

Experience in service as a current Board of Directors member, past Vice President, Past Board President, Chair of Standards Development Committee SDC900 Quality Assurance, Chair of the Financial Audit Committee 2022-2023, and a member of several working groups, task groups.

My passion for the success of RESNET and our Industry. My advocacy for equal representation of all accredited Rating Providers regardless of size of the organization. My advocacy of building RESNET membership by building equity and value in "membership".
