

Matt Gingrich
Energy Diagnostics, Inc.
Video Statement: none

1. Please describe in light of the responsibilities of the RESNET Board why you are the right person to be a member of the RESNET Board of Directors

I have been an active Board Member since 2016, during that time RESNET has seen steady growth and a massive increase in ratings. I wish to continue to provide service to RESNET and represent the HERS Raters. I will continue to vote with RESNET and the Raters interests in mind.

2. Why is this the right time for you to serve on the RESNET Board?

Energy Diagnostics is an established HERS Rating company, with an amazing staff. Having this exceptional group of employees allows me the additional time necessary to work on RESNET issues and stay up to date on RESNET Board activities. My nearly 20 years of industry experience as well as my previous years a RESNET Board member, will provide needed insight at this crucial time for RESNET.

3. Please explain your knowledge and/or experience in terms of each of the primary responsibilities of the RESNET Board

Being a certified HERS Rater and Quality Assurance Designee, I have the knowledge and insight to be an active participant in the strategic vision of the organization. I have a deep understanding of the fiduciary responsibilities of the Board. Having served several terms on this Board already, I am well aware of the bylaws and the 501c3 requirements.

4. Describe your experience in either leadership and/or serving on the board of a non-profit organization.

In terms of experience and leadership, I am a current RESNET Board member, and former RESNET Board Secretary, VP, and President. I was a founding member of the RESNET Emerging Leadership Council.

5. What would you contribute to the RESNET Board?

I have dedicated the last 20 years to improving the energy performance of homes and energy ratings. This industry knowledge plus my dedication will serve RESNET in positioning itself for new opportunities, as well as capitalizing on progress that is already in the works. RESNET is critical to the future of the rating industry. My dedication will be invaluable to the RESNET organization.
