

RESNET® Quality Assurance (QA) Project Manager (Remote)

Energy efficient homes make a difference in the world! If you're passionate about energy efficiency and aspire to be part of a team that is making a difference on the path to net zero-energy homes, look no further.

For 28 years, our nonprofit corporation, Residential Energy Services Network, Inc. (RESNET®), has been leading the way as a national standards-making body for building efficiency rating and certification systems in the United States. Our team consists of talented, dedicated people who share a sense of pride in helping to create a decarbonized future.

With over 4 million HERS® rated homes nationwide (and counting!), we are currently seeking a QA Project Manager to assist with the implementation and growth of our cutting-edge programs for energy and water efficiency, carbon, and energy codes. This fully remote full-time position will play an important role on our small, dedicated team, helping to serve a large network of home energy rating professionals, builders, and government and industry stakeholders.

Responsibilities

The incumbent in this position will work closely with Senior Staff of the RESNET® QA Team to:

- Manage the online enhanced QA reviews of RESNET® Accredited Rating Providers.
- Manage and provide oversight of RESNET Accredited Rating Provider Annual QA Reporting.
- Provide support to other RESNET QA team projects and activities, including but not limited to:
 - Technical support and outreach to QADs and other stakeholders.
 - Support for QA investigations and corrective actions.
 - Implementation of Home Certification Organization (HCO) responsibilities for EPA and DOE programs such as ENERGY STAR Homes, Zero Energy Ready Homes and WaterSense Homes.
 - Development of QA program standards and policies.

Required Skills and Qualifications

- Minimum of 3 years' experience as a certified RESNET® Quality Assurance Designee (QAD) or equivalent.
- Demonstrated track record of successful project management.
- Demonstrated track record of working both independently and in a team environment.
- Strong cross-functional collaboration and consensus-building skills.

- Minimum of 2 years' experience implementing one or more of the following federal programs: ENERGY STAR Homes or MFNC, DOE's Zero Energy Ready Home Program, Indoor AirPlus or WaterSense Labeled Homes.
- Experience developing and delivering presentations in live and virtual environments.
- Excellent organizational, project planning, and written and verbal communication skills.
- Attention to detail, analytical problem-solving skills, and technical orientation.
- Experience using Microsoft Office programs, including Word, Excel, and PowerPoint.
- Experience working from home or in a fully remote work environment.
- Bachelor's degree or equivalent combination of education and experience.
- Ability to travel approximately 8–10 times per year.

Additional Preferred Qualifications

- Experience implementing HVAC Qi testing, inspections and modeling.
- Experience implementing RESNET Accredited Rating Provider Policies & Procedures (in addition to QA).
- Previous certification as a RESNET Instructor.
- 3+ years of experience as a HERS® Rater or RFI.
- Previous certification as HERS® H2O Verifier.
- Experience working on multifamily projects within the residential construction industry.
- Experience with the standards development process.
- Familiarity with energy code testing and performance modeling.
- Familiarity with residential water efficiency, operational and embodied carbon emissions.
- Previous experience implementing residential green building programs such as LEED for Homes, Passive House, NAHB Green Building.
- 1+ years of experience using a *second* RESNET® accredited energy modeling software.
- Familiarity with the International Energy Conservation Code.
- Experience working with state and/or local governments.
- Project Management Professional (PMP) or other project management certification.
