

Proposed Standards Revision

Date: February 22, 2009
**Quality Assurance Designee Continuing Education Requirements
Amendment # 2009-01**

Proponent: RESNET Training and Education Committee

Proposed Changes:

Modify Section 209.1.1 as follows:

209.1.1 Continuing education units must be recognized by RESNET. Certified Rater trainer and quality assurance designee continuing education shall consist of a minimum of twelve hours annually.

Justification:

It was the intent that Rating Provider Quality Assurance Designees would have the same continuing education requirements as Certified Rater Trainers. This was accidentally left out of the current version of the standards. This amendment includes the quality assurance designees.
