

Attention Young Professionals!

Why you should consider a career in the home energy rating industry as a certified RESNET Home Energy Rating System (HERS) Rater:

Dynamic Ongoing Growth in Demand – Currently nearly a quarter of all new homes built in the U.S. are HERS rated

HERS Raters are recognized by state and local energy code and utility programs across the nation

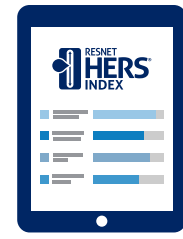

Becoming a Certified HERS Rater provides you with tangible skills

Qualify as a Building Science Professional

Ability to conduct high tech diagnostic tests on homes to determine energy performance

Ability to model energy performance of home designs using sophisticated HERS software programs

Being a Rater Means

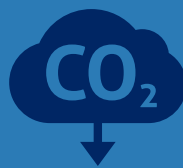

An Exciting Career Opportunity

Helping Create More Efficient Homes

Helping Reduce Families' Energy Costs

Reducing Pollution Emissions
