*Robert Pegues reason for voting no:

While I think Ian would be a valuable contributor to the committee, it is my opinion that neither a builder representative nor a provider/rater representative should chair the committee due to either a perceived or real potential conflict of interest.

Since there was a negative vote, following the RESNET policy on electronic balloting, a reconsideration ballot along with the reasons for Robert Pegues' no vote was sent out to those who voted.

The following are the results of the reconsideration ballot of those who voted on the original ballot on whether the RESNET Board should appoint Ian Hughes as chair of the RESNET Accreditation Committee.
