

Software Accreditation Review Fees

Software providers are a vital part of the RESNET® rating system, and builders and utilities rely on the data their tools produce. These fees align accreditation with the true cost of the work, including technical review, version and standard updates, and ongoing technical support.

BASE REVIEW FEE

\$1,500

Includes the first 5 hours of review time

ADDITIONAL HOURS

\$210 /hour

Subcontractor's billing rate plus 10%

Estimated fees by review scenario

Review scenario	Est. hours	Base fee	Additional hours	Est. total
Existing Software / Existing Standard	8	\$1,500	3 hrs (\$630)	\$2,130
Existing Software / New Standard	16	\$1,500	11 hrs (\$2,310)	\$3,810
New Software / Existing Standard	32	\$1,500	27 hrs (\$5,670)	\$7,170
New Software / New Standard	40	\$1,500	35 hrs (\$7,350)	\$8,850

Totals are estimates for complete, well-prepared submissions. Additional hours are billed on the review time actually required, so submissions needing fewer resubmission cycles cost less.
