2016				
Std 380-2016 adopted by MINHERS Addendum 20 November 2016 ⁴	February 4, 2016	January 1, 2018	13 months	

- 1) The MINHERS adopts Standards 301 and 380 and their addenda by reference. New editions of the Standards are adopted by amendment/addenda to the MINHERS. Addenda to editions of the Standards do not require separate adoption via amendment of the MINHERS and are effective upon the date of ANSI's approval.
- 2) The 2019 editions of Standards ANSI/RESNET/ICC 301 and ANSI/RESNET/ICC 380 were adopted by MINHERS Addendum 42 with defined Voluntary Compliance Dates and Mandatory Compliance Dates.
- 3) The 2014 edition of Standard ANSI/RESNET/ICC 301 was adopted by MINHERS Addendum 7 but its implementation was delayed several times including waiting for software vendors to modify rating software.
- 4) The 2016 edition of Standard ANSI/RESNET/ICC 380 was adopted by MINERS Addendum 20 but its implementation was delayed to provide time for training and raters to adapt to testing requirement changes.
