### What Is Dilaudid and What Is It Used For?

**Dilaudid (Hydromorphone)** is a **potent opioid painkiller** used to relieve **moderate to severe pain**. It's commonly prescribed after surgery, injury, or for chronic pain that doesn't respond to non-opioid medications.

#### **Key Uses:**

- Relieves **acute and chronic pain**
- Used for **post-surgical recovery**
- Provides **fast pain control** when other medications fail

Dilaudid works by interacting with opioid receptors in the brain and spinal cord, blocking pain signals and providing powerful relief.
